## UKRAINE'S POTENTIAL FOR GERMAN COMPANIES

Ukraine has great economic potential for German companies. The following factors play a role here.

- **Market size:**

Ukraine is almost twice the size of Germany in terms of area. With a population of almost 44 million (2021), Ukraine is one of the larger countries in Europe, with more inhabitants than Spain and Poland. However, 20 per cent of the population is currently outside the country.

- **EU perspective:**

Ukraine has candidate status with the EU. This creates pressure to introduce EU standards in the coming years.

- **Geographical location:**

As a neighbour of the EU with borders to Poland, Slovakia, Hungary and Romania, Ukraine is interesting for outsourcing investments from a logistical perspective.

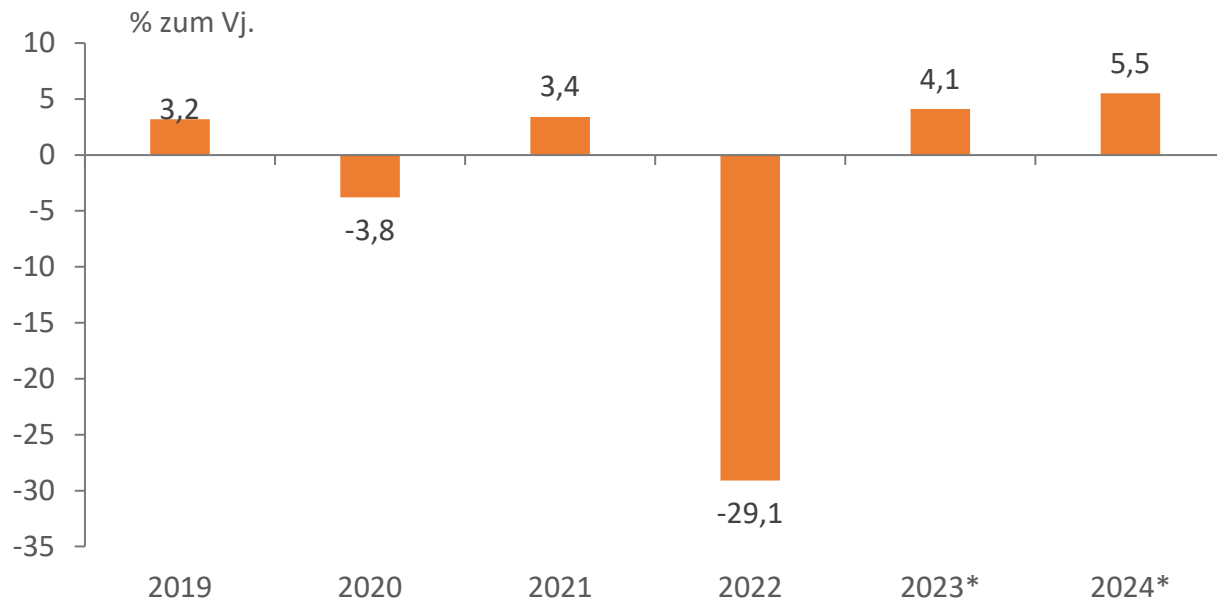

- **Labour force:**

Ukraine has a well-trained labour force, especially engineers, IT specialists and scientists.

# CURRENT ECONOMIC CONDITIONS IN UKRAINE

## Development of real gross domestic product

Quellen: ukrainische Statistikbehörde, \*Prognose des Instituts für Wirtschaftsforschung und Politikberatung gemeinsam mit dem German Economic Team

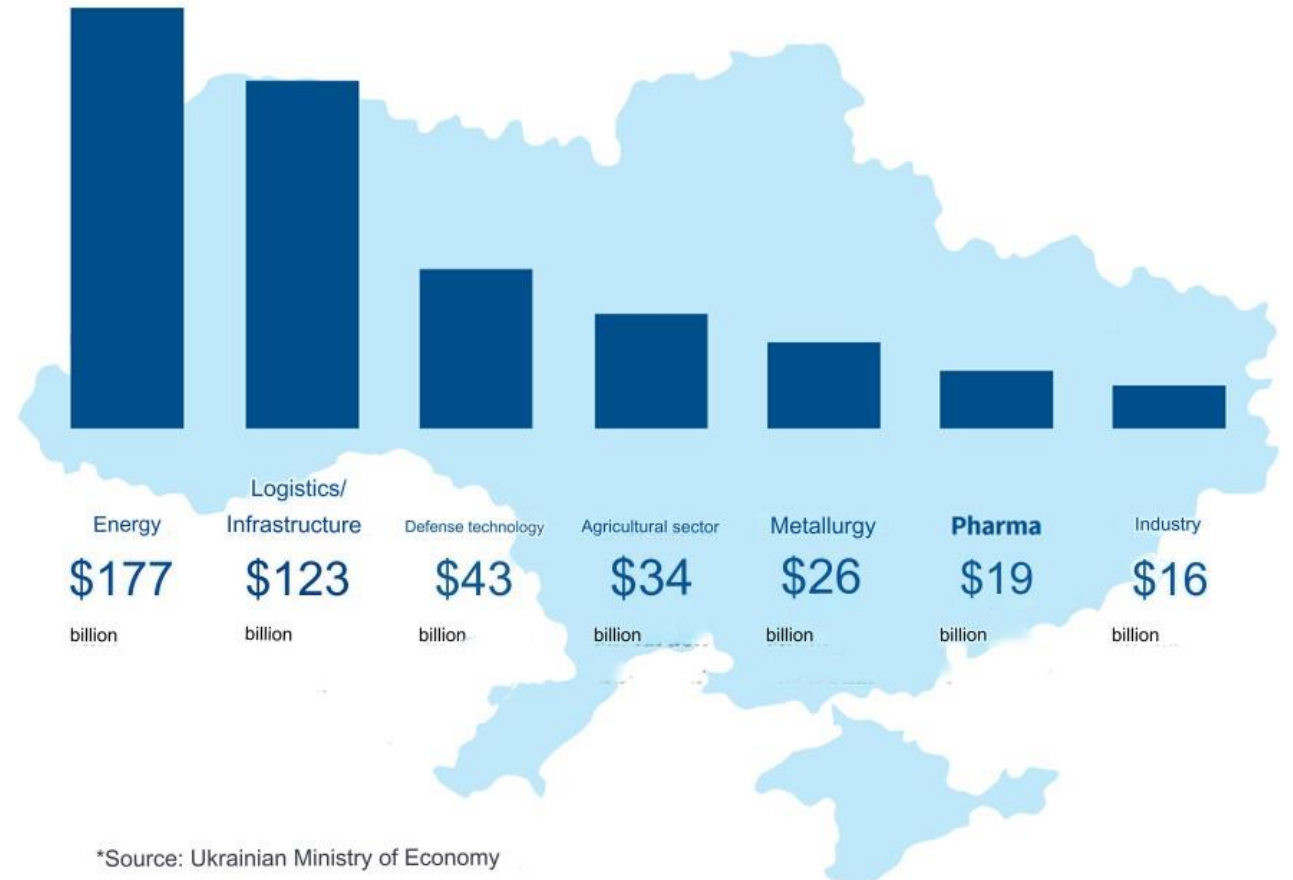

- After nominal gross domestic product (GDP) in US dollars more than doubled between 2015 and 2021, reaching USD 200 billion for the first time in 2021, Russia's attack has led to an unprecedented slump in economic development since February 24, 2022. GDP fell by 29.1% in real terms in 2022 compared to the previous year
- The World Bank estimates that Ukraine's gross domestic product (GDP) will grow by 3.2% in 2024 and by 6.5% in 2025. This is according to the World Bank's "Global Economic Prospects" report.

# REBUILD UKRAINE TEAM

Rebuild - which one exactly?

Despite the ongoing war, we are focussing on the reconstruction of Ukraine. As AHK Ukraine, we understand recovery on the one hand reconstruction of destroyed buildings and infrastructure.

The volume for this is currently over 150 billion US dollars. However, we see Ukraine's great potential for German companies primarily in modernization of the country. For modernization will require a total of USD 750 billion over the next 10 years.

With our Rebuild Ukraine team we accompany you with your investments.

# WAR RISK INSURANCE

The **World Bank's Multilateral Investment Guarantee Agency** (MIGA) has issued its inaugural investment guarantees for private investors in Ukraine. These agreements encompass insurance coverage of up to \$9.1 million for the M10 Industrial Park project located in Lviv.

The Ministry of Economy of Germany provides investment insurance through the Investment Guarantee Scheme, which is administered by **PricewaterhouseCoopers**.

**Export Credit Agency**

The institution protects Ukrainian exporters against the risk of non-payment and financial losses associated with the fulfillment of foreign trade contracts and provides a wide range of services that allow Ukrainian exporters to strengthen their credit policy and effectively manage their financial flows.

The Ukrainian partner banks of the Export Credit Agency are ready to provide loans to finance an export contract secured by an ECA insurance contract.

# FIVE REASONS FOR YOUR MEMBERSHIP

## Advocacy

The AHK Ukraine represents the interests of its members towards the administration and government of Ukraine. Through the committees of the AHK, you can actively influence the topics of interest representation.

## Network

The AHK Ukraine has a strong network of contacts in Ukraine and Germany. As a member you have access to these contacts. You can make new contacts and maintain old ones at AHK events.

## Information

The AHK provides you with important information for your business. You can stay ahead of the game through committee meetings, public events and regular updates. AHK staff are always available for sparring and information.

## Visibility

As a member of the AHK Ukraine you will be visible to customers and business partners through your personal and active participation in events and our membership directory.

## Discounted services

AHK Ukraine offers a range of services through its subsidiary DEinternational. As a member you will receive a discount.
