SIMAC TANNING TECH is here

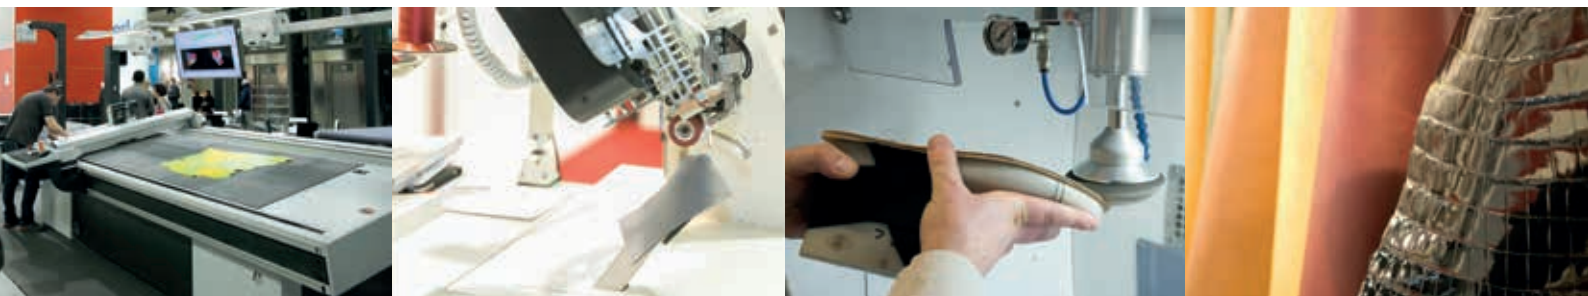

International exhibition of machines and technologies for footwear, leathersgoods and tanning industry

Simac Tanning Tech is the annual event that showcases the best selection of machinery and technology for the footwear, tanning and leather goods industry.

The event takes place at Fiera Milano Rho and is the most important global technology event for the fashion industry, making available to its exhibitors and visitors an ideal environment to grow their business and foster relationships between businesses and visitors.

In three days, Simac Tanning Tech offers concrete business opportunities and services to companies and operators. Simac Tanning Tech is a truly international trade fair, which hosts hundreds of delegates who come to Milan because they are aware they will find the most avant-garde technological offer and the most appropriate responses to their manufacturing requirements.

Simac Tanning Tech is organised by Assomac, the National Association of technology manufacturers for footwear, leather goods and tannery.

A FAIR THAT LIVES ALL YEAR

Simac Tanning Tech offers photographic services and videos dedicated to each exhibitor, published online on the official website of the fair

www.simactanningtech.it.

The goal is to create a virtual fair, which is not limited solely to the three days of the event, but which lives throughout the year and is accessible from all over the world.

HOW TO GET TO THE FAIR

- MOTORWAYS
- SUBWAY
- TRAIN STATION

BY PLANE

FROM LINATE AIRPORT

Bus no. 73 and subway red line - M1, direction of Rho-Fiera Milano.

www.atm.it

FROM MALPENSA AIRPORT

Malpensa Shuttle or Malpensabus Express Motorway company: www.malpensashuttle.it

www.autostradale.it

FROM THE AIRPORT OF ORIO AL SERIO

Orio Shuttle-Airpullman or Motorway company: www.orioshuttle.it

www.autostradale.it

BY TRAIN

FROM MILAN CENTRAL STATION, MILAN PORTA GARIBALDI, MILAN LAMBRATE:

Subway Green line - M2 direction of Abbiategrosso; get off at Cadorna, then change to Subway Red line M1 towards Rho - Fiera Milano.

BY SUBWAY

Red line - M1, direction of Rho-Fiera Milano - www.atm.it

BY CAR

FROM THE A7-GENOA MOTORWAYS, TAKE A1 BOLOGNA AND A4-TORINO:

West motorway heading North, exit at Fiera Milano.

FROM THE A4- VENICE MOTORWAY:

exit at Pero-Fiera Milano.

FROM A8-VARESE AND A9-COMO MOTORWAYS:

from the barrier of Milan, head North in direction of A4-Venice and exit at Fiera Milano.

FROM MILAN:

motorway A8 heading to Varese-Como, exit at Fiera Milano
motorway A4 heading to Torino, exit at Pero-Fiera Milano.

BY TAXI

Authorised taxi services at airports of Linate and Malpensa, on certain predetermined routes, including the Fiera Milano district, apply standard rates.

ITALIAN INDUSTRY OF FOOTWEAR, LEATHERGOODS AND TANNING MACHINERY MANUFACTURERS

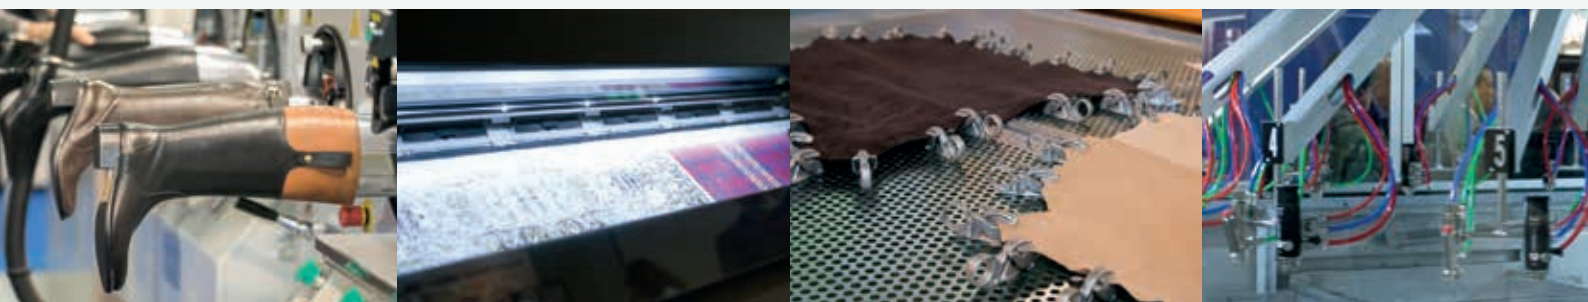

The Italian industry of footwear, leathergoods and tanning machinery manufacturers is a productive sector that gathers about 240 small and medium-sized companies and boasted in 2017 an overall turnover of about 690,00 million Euros, of which 75% exported.

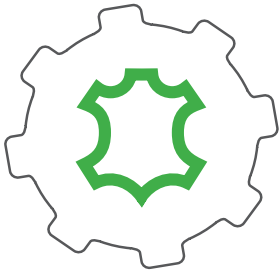

Sector	Export (millions €)
Traditional footwear machineries	123,34
Leathergoods machineries	45,00
Injection machines	51,16
Tanning machineries	176,66
Spare parts	94,97
Moulds	22,87
Total	514.00

Most of the companies producing traditional footwear and leathergoods machines is located in Lombardy (especially in Vigevano) but other productive centres are located in Tuscany and in the Marche. Companies manufacturing machines and equipments for sport shoes are mostly located in Veneto, in particular in the area around Padua, and in Varese (Lombardy).

The **tanning machines sector** is world-wide leader as well; the companies are primarily located in Tuscany, Veneto, Lombardy, Piedmont and Campania. The tanning machinery sector exports most of its production and the main markets in 2017 were: China, Vietnam, Indonesia, Albania, Portugal and Spain.

The sector of **footwear machines** exports about 75% of its production and in 2017 its main markets were China, Vietnam, United States, Russia, India and Mexico. The Italian industry of footwear and leathergoods machineries, developed during the 50's, is a world-wide leader.

The multilingual Guide of machines and technologies in one click

WOULD YOU LIKE TO SEE THE WHOLE PRODUCT
REPertoire IN DETAIL AND THE TYPES OF
PRODUCT OF ITALIAN COMPANIES?

Translated into ten languages, the multilingual Guide of machines and technologies allows you to discover and see the specifications of each machine and the technologies available on the market and manufactured by Italian companies, with a direct link to the company website, references, numbers and email.

Supplier of Sustainable Technologies project

ASSOMAC introduces the Green Label, a voluntary tool that aims to identify the performances of a single machine and technology manufactured by associated members.

The "Supplier of Sustainable Technologies" project is more than a simple self-declaration regarding sustainability, it is an implementation of Labeling System for the members certified by Third Party Entity.

The compliance with the established procedure allows to present the impact of the system within production process by the international parameter CFP (Carbon Footprint), based on LCA (Life Cycle Assessment) calculation.

WHO IS ASSOMAC

ASSOMAC is the national association of Italian manufacturers of machinery and technology for all phases of industrial management and production in the leather, footwear, leather-goods, fur, furnishings, clothing, saddler and automobile sectors.

Italian exports account for about 50% of all the exports of countries manufacturing machinery in this industrial sector worldwide. Every year, Italian companies export more than 80% of their production to 100+ countries around the world.

ASSOMAC forms part of CONFINDUSTRIA, the most important Italian industrial organisation.

For ASSOMAC, technology is know-how acquired day after day. The constant development of applied technology – often following requests from customers all over the world – leads to the personalisation of machinery, systems and also companies. This is the concept of developing technology of ASSOMAC's member companies, who put themselves forward as problem solvers at the service of the worldwide manufacturing/ industrial system.

On the one hand, “sustainable technology for quality” leather processing and manufacture of footwear and leather goods, i.e. modern, reliable and eco-friendly machinery, systems and products that can execute highly complex and delicate processes. On the other, “quality technology” that guarantees clients safe in-line machinery and products/systems that are always in perfect working order, at all times and anywhere in the world.

Tanning fine hides and manufacturing first-class shoes and leather goods require advanced technology that guarantees great process, production efficiency control and repeated and consistent quality – which is what the markets demand.

ASSOMAC promotes and holds training courses, workshops, feasibility studies for refurbishments and new industrial parks and technological publications etc. all over the world, with the support of the Italian Ministry of Economic Development and ICE, the Italian Governmental agency.

THE PRODUCTS OFFERED BY THE ITALIAN INDUSTRIAL SECTOR REPRESENTED BY ASSOMAC INCLUDE:

- > Tanning machinery > Footwear machinery > Leather goods machinery > Design machinery
- > Systems for handling > Systems and plants for water, sludge and air treatment
- > Laboratory machinery and equipment

PRODUCTS ON DISPLAY

Machines and technologies for footwear and leather goods and accessories, CAD-CAM, machines for dies, die cutting or continuous mode cutting machines, sewing machines, machines for the manufacture of dies, machines for the assembly of uppers and soles, machines for footwear components, machinery for repairers, moulds and chemicals, Tannery machines, accessories, chemicals, water treatment plants, equipment for lab tests, engineering

HOW TO ACCESS SIMAC TANNING TECH

To attend Simac Tanning Tech, you must log onto the official website of the event:

www.simactanningtech.it

Just a few simple steps and you can receive directly on your computer the ticket to exhibit at the entrance to the fair.

MOBILE APP

You can download the new **Simac Tanning Tech App** for free. Thanks to the updated data in real time and to the clean and functional layout, organizing your visit to the fair is now easier and faster. The App allows you to quickly search for exhibitors, view detailed information (such as personal data, contact details, stand location and products on display) and browse the catalog by product category or through free search. In this way you can build a real visiting diary, save your favorite exhibitors and add notes and notes related to the meetings held at the fair.

EXHIBITORS LIST

Visit the official website of Simac Tanning Tech and see the most updated exhibitors list

www.simactanningtech.it

PARTICIPATING COUNTRIES

Argentina, Belgium, Bulgaria, Brazil, China, France, Germany, Greece, India, Italy, Netherlands, Poland, Portugal, Romania, United Kingdom, Spain, South Africa, Sweden, Switzerland, Taiwan and Turkey.
